

# ISU ADVANCE Networking Event

November 14, 2007, noon - 1 pm  
Room 240 Bessey Hall

## Making a Career in STEM: Three Women's Stories

- **Dr. Kristen Constant, Associate Professor, Materials Science & Engineering**
- **Dr. Lisa Larson, Professor, Psychology**
- **Ms. Becky Stadlman, Director of Human Resources, Sauer-Danfoss**

Please join us for an informal discussion of the special issues faced by women working in science, technology, engineering, and mathematics (STEM) careers. Presenters will offer three perspectives on the issue and will discuss research on the gender-related issues of working in STEM disciplines, experiences with the challenges of recruiting women into STEM careers in business and industry, and the challenges and rewards of maintaining a STEM career in the academy. There will be plenty of time for discussion.

Faculty, staff, and students are welcome.

*Bring your own brown bag lunch.*

*Refreshments and beverages will be provided.*
